

2023 SAUVIGNON BLANC

The 2023 Sauvignon Blanc has an intensely tropical and aromatic nose, with notes of passionfruit, grapefruit, and fig leaf.

Pale straw in color, it offers a juicy and refreshing palate with perfectly balanced acidity. A hint of minerality and texture builds towards an elegant finish.

The oak is very subtle, affecting the texture more than the aromatics, creating a very fresh and elevated style of Sauvignon Blanc.
