

# SALVESTRIN

~ DR. CRANE VINEYARD ~

2021

## THREE D

DR. CRANE VINEYARD

The 2021 3D Cabernet Sauvignon opens with enticing aromas of baking spice, black currant, and licorice, setting the stage for a rich palate of blackberry, plum, and a hint of cocoa. Its soft entry builds to a full-bodied mid-palate, with velvety tannins and vibrant acidity creating a balanced structure. A long, lingering finish highlights notes of cocoa powder and cinnamon. With its depth and complexity, this wine not only shines now but is poised for graceful aging.

### BLEND

100% Cabernet Sauvignon

### AVA

St. Helena, Napa Valley

### HARVEST

September 2021

## THE WINEMAKING

The 3D Cabernet Sauvignon is our premium Cabernet offering, made in honor of Rich and Shannon Salvestrin's three daughters. Always 100% Cabernet Sauvignon from our estate Dr. Crane vineyard, this wine is a barrel selection of our very best barrels each year. 14 months into aging, our winemaking team tastes through every single new Cabernet Sauvignon barrel from the vintage and selects the best barrels. The selected barrels are then stacked together and put away in the cellar. Twice more, the selected barrels are tasted through—each time eliminating barrels and keeping only the very best—until our final round, where we keep the top 10-12. These barrels are then blended and put back to barrel for the final aging period before bottling. Total aging time is 32-34 months in 100% new French oak
